Glide down the mountainside in a snow tube — no matter what the temperature is outside! As you zoom down the hill, calculate the factors that influence your speed.

WATERFRONT

Explore the waterfront through jump pads, slides, and the Blob, or venture out on a paddleboard. Don't forget to take a water sample to analyze the lake's ecosystem!

ZIP DROP

Take a thrilling ride on our auto-belayed zipline, then dive into real data sets to identify patterns and trends. It's hands-on learning with an adrenaline boost.

SUPER SWING

Experience the thrill of the Super Swing as you glide 30 feet into the air — all while discovering firsthand how Newton's Second Law connects force, mass, and acceleration.

GRANT FUNDING & TRANSPORTATION

GRANT FUNDING

Glorieta Adventure Camps was awarded the Outdoor Equity Fund in 2026 and has funds available to help get students outside for experiential learning. Complete our application for grant funding up to \$40 per student. As we are able to award those funds, \$40 covers one student for a day experience.

Not sure what experience will work best for you and your school? Let us know what your budget is and our Outdoor Education team will be happy to help build an experience that fits your budget and your goals.

TRANSPORTATION

We don't want transportation to be a barrier for students. With the Outdoor Equity Grant, funds are available to assist schools with transportation. In your reservation process, please let the Glorieta team know if your students and school could benefit from these funds.
